

# 3-WAY CORNER BRACKET

AngleLock's 3-Way Corner Bracket connects three profiles into a corner joint that never shifts out of alignment!

## AngleLock

- One bracket connects 3 profiles and top plate
- Automatic alignment - square every time
- Clean look with rounded profile
- Easy installation of top plate using bracket

## T-Slot

- 3 Brackets for 3 Profiles
- Constant realignment required
- Extra brackets are unsightly and lack the strength of the 3-Way Corner Bracket
- Additional brackets are required for mounting top plate
